

# Unbelievers

1.

Flowers adorn the bed where I lay  
I am anxious to know what they will say.  
Will those that find me will their hearts break?  
There was no other way to escape

## CHORUS

Here is a prayer for unbelievers Here is hope for the sinner

2.

Thoughts barren painful sensual delight  
Void of color intrusion is white  
Sterile breath has no more fight  
Silenced overtaken by the beauty of the night.

## CHORUS

Here is a prayer for unbelievers  
Here is hope for the sinner

**I thought I wanted to be free  
But I need you next to me  
So find your place within my head  
In the dark world of the blessed dead  
And I promise no escape sleep with me in my grave  
How sweet lovers can be  
And I promise no escape sleep with me in my grave  
Valentine through eternity**

When push comes to shove  
Darkness swallows love  
Never been a blacker night  
Then when we see the light

Power Push

By myself By myself by myself  
By my life  
By myself By myself By myself  
By my strife

**(Steve Osborne took his own life shortly after we recorded Tsar Bomba. Steve was our long time on again / off again guitar player who added amazing solo guitar parts to our tunes. Troy and I had known Steve for some 25 years and regardless of the tragic circumstances of Steve's departure, we love him and know that we will reunite with him in God at the appointed time,)**

## DARKER DAYS

We've all been Judas we've all been betrayed  
Included in Adam born and dismayed  
Never asked to be born and sure don't want to die  
One man's obedience brought truth to the lie

Had flames in my head and got a fire in my heart  
Been salted baptized I am the worm that doesn't die  
Somebody been writing upon my human heart  
Giving me life that don't tear me a part

### **CHORUS**

DARKER

DARKER DAYS

I am a believer and you are just a dreamer

The days are growing darker  
Today we reproach we suffer  
The days are growing darker  
Tomorrow we disintegrate and glow

### **VERSE 2**

Shadows are illusion with painted black faces  
Religion is a habit that can never save us  
Heaven is a place very close to my heart  
Hell was invented to keep us tore apart

When you live in the sewers paradise underground  
A little bit of truth can sound so profound

As this ink dries and my eyes are open wide  
All I can see is this vision that I write

### **VERSE 3**

I long for the day when we can be free  
When every mind is open every spirit is freed  
But that day is not for me to decide  
So live life like you are never going to die

Just watching the stars There's something in your eyes  
I see love I know how you feel inside  
Why be a prisoner of your torments and fears  
Why think of death when life is so near

### **DARKER**

Had flames in head now Fires in my heart  
Been salted baptized I'm the worm that doesn't die  
Somebody been writing upon my human heart  
Somebody been writing upon my human heart

### **CHORUS**

The days are growing darker  
Today we reproach we suffer  
The days are growing darker  
Tomorrow we disintegrate and glow

Matt 5:14

# We Lie

## **VERSE**

I'm getting smaller everyday  
Shrinking by the hour  
And when I am gone from your life  
Will you miss me?

## **VERSE**

I am the smoke you brush away  
With the hand that touched me  
The ambience and the mood  
And you seek to be free

## **CHORUS**

We lie, we cheat, and steal  
Love we live to deceive  
We risk we chance we feel  
Things hard to believe

The thoughts the notions the drive  
Never cease to amaze  
This life creates the prize, the highs  
Dreams within my waking day  
We find we claim we take, we wake  
The soul that makes us alive  
We hurt we're lost we seek to save  
We fight refuse to die.

You broke I choked the heart that bleeds  
Within my heaving grieving chest

And with your guarded walls you crushed  
You squeezed you pulled you pressed  
I prayed I cried expressed, confessed  
That you would my bride no less  
Stubborn you, act the fool, I digress  
The fears compressed I rest.

## **CHORUS**

We lie, we cheat, and steal  
Love we live to deceive  
We risk we chance we feel  
Things hard to believe

## **VERSE**

Longing hurting desire  
To taste what makes us ache  
We are drawn to the fire  
Pulled by the things we crave.  
The things hard to believe.

(John 3:30) John the Baptist was in a very lonely place in His life and he understood his place as Jesus appeared upon the scene. In all humility and obedience John bowed out to make way for the Savior of the World.

# All The Kids

Take the wheel and drive  
Push the pedal to the floor  
Don't you just love the open highway?  
Cause the world passes you by

ALL the kids are gone  
ALL the kids are gone  
ALL the kids are gone

So much more to see and do  
Nothing stopping us now  
Hear the roar of the road  
We go where we belong

You can take my hand  
We can walk together  
The world can beautify  
The ocean in your eyes

## **VERSE 3**

Drive til' no more road  
Crashing on the waves  
Crashing on the rocks  
Crashing to be saved  
Sound like the bomb that dropped  
And now we are gone

1 Cor. 13:11

# Melting

V

When I was a child I saw the end of all things  
The earth unwound just like a ball and stretched out like a string  
Fire in the sky lighten in the air  
There were looks of doubt and screams filled the air

I don't know  
Who I am  
If I exist at all

2 V

In this world we will have many regrets  
But you are the one I try to forget  
Love should never be a sacrifice  
The day should never ruin a perfect life

I don't know  
who I am  
If I exist at all

## CHORUS

I feel I am melting / into this world of pain  
I feel I am sinking / into this world of shame  
I feel I am dying / you're the one to blame  
What is my purpose my future my reason to stay

Maybe I am a figment of my own mind  
One of a billion stars thrown out into space and time  
Isn't it so sad that we sleep alone tonight?  
I want to be there with you the end is in sight.

Maybe I'm a victim you cannot understand  
A single word that I say the words I command

You are so busy with so many other things  
You drive me / you drive me out of my mind

### **CHORUS**

I feel I am melting / into this world of pain  
I feel I am sinking / into this world of shame  
I feel I am dying / you're the one to blame  
What is my purpose my future my reason to stay

**Psalms 23:4**

# Free

## **VERSE 1**

Surfing the astroplane  
Looking for my simple mind  
Over complicated  
Has led me to be over-rated

## **CHORUS**

**I will kiss the ones I love  
It's no crime I have enough  
If they don't follow I'll still lead  
I'm the example so look to me**

**So I breathe the air that is given to me  
I embrace the things that make me free  
And if no one understands  
I'll stand alone - I'll be the man**

Main street oblivion bleeds lies and politics  
We stand up for our rights and the cops beat up with sticks  
Prophecy to the tenth degree  
Open your eyes and you will see  
The backlash the whiplash devastation like a cannon ball splash.

My heartfelt hypocrisy, writing my biography  
Lost on democracy.  
Rag-town, downtown, everybody stand up, don't sit down  
Get up off your backs, verbal attack  
It is time to take it back.

## **CHORUS**

**I will kiss the ones I love  
It's no crime I have enough  
If they don't follow I'll still lead  
I'm the example so look to me**

**So I breathe the air that is given to me  
I embrace the things that make me free  
And if no one understands  
I'll stand alone - I'll be the man**

Take that light out of my face  
Step back give me room to pace  
Free to rant try to stop my chant.  
Spread the wealth, go to hell  
Something in my crawl, something smells

You want change, it goes bang, I hear your prison door clang  
It ain't nothing, It ain't hope  
Stinks like a drug, lies like dope  
I'm losing reflex, what do you expect  
I'm tore up, But I'll store up, **CONFLICT**

### **VERSE 2**

Traveling airborne hypnotically  
Looking down at a cool breeze  
Lay me in the current flowing  
Energize me while I'm glowing

### **CHORUS X2**

**I will kiss the ones I love  
It's no crime I have enough  
If they don't follow I'll still lead  
I'm the example so look to me**

**So I breathe the air that is given to me  
I embrace the things that make me free  
And if no one understands  
I'll stand alone - I'll be the man**

*Give me bitterness and gall  
I take this pain for free  
It burns my throat my tongue is numb  
My eyes are opened to see*

*Plow my body with your sting  
Wrapped around my golden wings  
Squeezing the breath out of me  
I fight through blood and misery*

*Today it should have been me  
But I watched the whole world die  
For different reasons I can't explain*

*Today I watched you cry.*

Do what you must we all turn to dust WE ALL DIE ALONE  
It's not just we all lose trust WE ALL DIE ALONE  
Life screams loud stripped of power WE ALL DIE ALONE  
When it turns sour, in our dying hour WEALL DIE ALONE

Losing in the end letting go of friends WEALL DIE ALONE  
Caution to the wind confessing every sin WEALL DIE ALONE  
Everyone's fate death to taste WEALL DIE ALONE  
Like Jesus on the cross we all suffer loss WEALL DIE ALONE

Eph 6:13-14

# Religion

1. When push comes to shove  
And darkness swallows up love  
Never been a blacker night'  
Than when we see the light

1. From glory to glory  
From the beginning to the end  
Everything under the sun  
It is there to comprehend

## **CHORUS**

Religion can't save you now  
Government can't save you now  
Even I can't save you now  
And your luck's run out your luck's run out

2. Angry without reason  
Fighting without cause  
Hostile with no enemy  
Shouting to be heard

2. Praying for self-destruction  
To be picked apart  
Watching my frame dissolve  
Waiting for the war to start.

## **CHORUS**

Religion can't save you now  
Government can't save you now  
Even I can't save you now  
When your luck's run out your luck's run out

## **VERSE**

3. Paralyzing distances  
Between my Maker and me  
Death has not lessoned

Over the centuries

3. The world is filled with monsters  
Suppress the lasting cure  
Resting holy hands  
On freezing graves so pure.

### **CHORUS**

Religion can't save you now  
Government can't save you now  
Even I can't save you now  
And your luck's run out your luck's run out

Incomprehensible Unsearchable Indescribable  
Undeniable Inconceivable indivisible  
Indiscernible, inescapable, infectious  
Innumerable, inseparable, inspired,  
Intertwined, indwelling, internal  
Intoxicating, intimate,  
Inundated, intricate, intrigue

### **INCORRUPTIBLE**

1 Cor 13:1

# I Can't Imagine

1.

I am not afraid of the end  
I told you it was coming  
Take my hand as you grow faint  
Time is now no constraint

2.

Let me show you  
There is no fear  
Look into these eyes  
I'm letting go  
Of the life I know  
No illusions  
Just the world below

## CHORUS

I can't imagine anything  
Left for me to do

## BRIDGE

Not a soul alive  
Doesn't wish for a another hero  
Not a single person  
Would gamble on a loser zero

We root for the underdog  
We cheer for the boney kid  
The world stands on tip toes  
We exist through those that live

Ha ha

Ha ha  
Ha ha huh huh

**3.**  
Times I cried  
There were times I died  
The times I needed you the most  
The nights I couldn't sleep  
I prayed my soul to keep  
Found comfort in the Holy Ghost

2 Timothy 4:7

# I Want It All

Surrender all to you never doubt a single word  
Use me how you wish give to you a single kiss  
Give breath from my lips Nothing left for anyone else  
Every heartbeat belongs to you / I have you all to myself

## **Chorus**

**I want it all  
I want everything  
I want it all  
All of you in me**

V

Under your love spell / now is the time I have dreamed  
You are the only one / No one but you for me  
I shall be yours in time / love never feels regret or fails  
Our love will never die / from the highest heaven to the  
lowest hell

## **Chorus**

**I want it all  
I want everything  
I want it all  
All of you in me**

You said you seen the future died to the past  
The future is the present and the present never last  
Eternity is the now and we shoot for the top

We go straight up and no we're never going to stop

But where does that leave me?

You said many things that I'd not understand

There's no time to explain you said I'm just part of your master plan

But why oh why tell me why today

Why your selfish arrogance has pushed me away

Every word I cling to / yes to all that you say

Over and over again unable to exist without you

Am I too close am I smothering you? Pull me close but  
never never ever cut me loose.

## **Chorus**

**I want it all**

**I want everything**

**I want it all**

**All of you in me**

**Lovers and sinners**

**Losers and winners**

**And in the end**

**We are all pretenders**

**Eph 5:25**

## Where You Wanna Go

### V 1.

**Wait to come in**

Please tell me everything about you please tell  
Please tell me

*What you know, who you know and where you wanna go  
What you know, who you know and where you wanna go  
What you know, who you know and where you wanna go  
Whatcha you know, who you know and I lose control*

### V 2.

I never seen anyone like you, please tell me (**TELL ME  
TELL ME**)

PC

*What you know, who you know and where you wanna go  
What you know, who you know and where you wanna go  
What you know, who you know and where you wanna go  
Whatcha you know, who you know and I lose control*

### V 3.

Who are you, give me a clue, how do you do the things you  
do

PC

*What you know, who you know and where you wanna go  
What you know, who you know and where you wanna go*

*What you know, who you know and where you wanna go  
Whatcha you know, who you know and I lose control*

## **CHORUS**

I don't know what I know / I don't know what I know  
I don't know what I know  
The world can be amazing when you're slightly strange

WHO AM I AM  
WHO AM I AM  
If the answer comes  
tells me so

(Mark 8:27) In this world some 2000 years after Jesus birth, life, death, resurrection and ascension people still try to define The King of King's and the Lord of Lord's.

# Sleep On

I watch your poison in my day dream  
Cause the world is dying in one long scream

The chaos the friction mundane addictions  
Truth and the lies sick and the twisted  
Everyone has has their answers  
Seems to me everyone was wrong

There has only been one answer  
There has only been one truth  
There is a seed planted deep inside  
Deep inside of every one of you

I watch your poison in my day dream  
Cause the world is dying in one long scream

Sleep on the world is spinning in your name  
Sleep on your heart is forever breaking  
Sleep on your life is slowly melting fading  
Sleep on your Maker waiting for you.

Never had a fear of dying DYING  
Never been afraid of flying FLYING  
Who do you say I am?

Some say I am the devil (NO WAY)  
And some say I wish I could  
Maybe I am / a MISunderstood prophet  
Coming to burn you down

Isa 54:5

# Something I Need To Know

I want to speak a language that only angels understand  
I want to build a glass kingdom made from grains of sand  
I want to stand on top of the world naked and revealed  
Take a parachute ride through the universe concealed

## **CHORUS**

This is something that I know  
I share it with every living soul  
This is something I need to know

I want to swallow the sun and shine on you with rays of  
love  
Drink the blackness of your everlasting soul that is  
bleeding  
I want to leave the atmosphere touch everything that is near

## **(SHAKERS) (TAMBORINE)**

If you are wearing shadows Eyes as black as coal  
Your skin as soft and pale your complete control  
Have you met the man called Messiah Jesus Christ?  
Is he your sad sick failure or paid the greatest price?

## **CHORUS**

1 John 5:20

# I Choose You

You came from out of nowhere  
But somewhere you were there  
All the time simply waiting  
To make your way to me

I am a man and I prayed  
More than I could ever really say

## **CHORUS**

And I found a highway  
That tells me I am free  
I am free to love who I choose  
And after all this time  
I choose you

## **BRIDGE**

What have you done to me?  
You make the impossible our reality  
And now that your voice is in my head  
I remember every word that you have ever said

## **VERSE 2**

I will never be on my own now  
You promised that you would never leave me  
Together give me respect and thoughtfulness  
I died today when you slipped through my fingertips

I cannot imagine a life without you  
You cannot train the wind  
I said all the right things to the wrong girl  
I never meant to do you harm.
